Dear Nick,

When we moved to Chicago, we decided to build a new home for the first time after buying finished homes in the past. Of course, we heard all of the horror stories as we talked to friends about the process.

THANKS FOR PROVING ALL OF OUR FRIENDS WRONG!

Actually the building experience with Oak Hill was wonderful and fun. Now that we have had the opportunity to live in our home and enjoy the results, I wanted to acknowledge the great work that you and your team accomplished in building our home.

You were professional at every step and expert in suggestions and recommendations. Most importantly, the commitment to quality that you and your team demonstrated has left us with tremendous appreciation for Oak Hill. Nick, thanks for providing the leadership and quality of customer care at Oak Hill that has been a real blessing in selecting you as our partner in this major investment. It has certainly been a great experience that we gratefully appreciate and acknowledge.

Sincerely,

Jylla M. Foster

Dear Mr. Stanitz,

We are especially pleased with the outstanding job performed in the construction of our residence by Oak Hill Builders.

Our property was delivered when promised, and the work was performed in an exemplary manner. Construction and design display expert craftsmanship. All services were performed to our satisfaction. The staff of Oak Hill Builders were courteous and receptive to changes. We were able to include many personalized touches to the main architectural design.

We would highly recommend Oak Hill Builders to others, and would request the services of your staff for any future property.

Sincerely,
Michael and Kathleen Smith

Dear Nick,
Thank you for building us such a great house!!!

As you know, we were faced with selling our beautiful home just one year and four months after moving into it due to another, and rather unexpected, corporate relocation.

Everyone was extremely surprised and impressed that we sold in just 3 days! In reality, it was 2 days: we were on the MLS on Wednesday, had a great offer on Thursday and sold on Friday morning!

Also, the appreciation that we realized in the relatively short period of time in which we were able to enjoy our wonderful home is quite astounding!!!

We feel that our buyers - who, by the way, recognized the quality and beauty of our Oak Hill home - will experience that same kind of appreciation during the time in which they live in the house.

The reason for this, we believe, is that we have an Oak Hill home. In our opinion, Oak Hill builds a house that is unsurpassed in its excellence of construction/energy-saving features, beauty of design and top quality 'standard appointments'.

Everyone who has seen our house has been obviously impressed by its quality and beauty. We have heard so many times from people, "We should have built with Oak Hill!"

In fact, when one of our neighbours heard of our impending relocation, she tried to her husband to sell their house and buy ours. They both love our home!

However, we got official word of the relocation toward the end of January, had all the appraisals etc. done in February and had sold by 3 March! The process was really very quick!!!

We are grateful to all of the people involved in the Oak Hill organization (would not want to mention names for fear of missing someone).

However, I feel it is necessary to comment on you, Nick, the builder. As you know, the building of this house was my responsibility and I researched the builders thoroughly!

My husband calls me "the queen of research". I am not "wowed" by fancy models or decorating etc.

I examined/compared all the facts re: construction, design and standard features and came to the conclusion that Oak Hill left the others in the dust!

Family and friends in Canada - we built our house when we were being relocated from Canada to this area of the US - thought that we were crazy to undertake such a project from that distance.

I responded that I felt confident with this because I believed in the product AND because I had faith in the integrity of Nick Stanitz, both as a person and as a builder.

You lived up to my expectations, Nick, as has the beautiful home that you built for us. My only disappointment is that you are not building in our new locale!

Sincerely yours,

Geri Piotrowski

Dear Nick,

After having lived in our house that you built for us for more than 8 years, we still love it tremendously! When we have guests, invariably we get many positive comments on our home. They remind us of the reasons why we chose you to be our builder. The quality of your team's workmanship is evident in:

- The openness of the floor plan of our modified Jamie Lynn Plan
- The willingness to customize our home to meet our wishes
- The beautiful cabinetry from Yoder Cabinets
- The efficiency of the Low-E glass windows and doors
- The unique ceiling designs in every room

We would like to take this opportunity to commend you and your team.

Thank you also for your attention to detail during the building process as well as during the few times we have contacted you over the years.

We highly recommend Oak Hill Builders to all who are looking for a home they will enjoy for many years.

Best Regards,
Gayle and Larry Kelly

Dear Nick,

Thanks to you and your team for a great and a beautiful home that we are enjoying for last four years. The work is fantastic and we love it very much.

There are several features for our product that separates you from other builders.

- Attention to details in ceiling, floor plan, Kitchen Island.
- Fully custom home with many options as per customer wishes.
- Sound and energy windows and insulation superior to any builder.
- Ceiling heights, brightness and floor openness is very unique.
- Rounded drywall joints, beautiful stairs and recessed lights are superb.

We have always said to our friends that if you want "Lexus" type home, please contact Oak Hill. They are the best. We highly recommend them.

Best Regards,
Jitendra and Varsha shah
